Akshat V. Tenneti

Technology Law and Policy Researcher

As a final year B.A., LL.B (Hons) candidate at GITAM University, my academic trajectory converges on the legal aspects of emerging technologies like AI and Blockchain. With experience leading compliance research at National TEQIP Hackathons and co-founding Tripleths ENS DAO, a digital assets-oriented organization, I have acquired hands-on experience in tech law and policy research.

My curiosity and focus extend to AI Safety & Alignment, AI Policy and Liability, which drives me to grasp the regulatory and legal intricacies of these innovative technologies. I'm equally passionate about Enterprise Blockchain Solutions Research and Blockchain Policy Research, making me well-equipped to meet the versatile challenges of compliance, policy, and legal research in the emerging tech industry across different verticals.
